

Linking your Libby account to your Sonos speaker takes just a few steps.

1. Open your Sonos app and go to **Settings > Services & Voice**. Under Music & Content, select Add a Service (on desktop, go to Select a Music Source > Add Music Services) and scroll down to Libby by OverDrive.

2. Select Libby by OverDrive. You'll be prompted to log into your Libby account. If you don't have one already, you'll need to either download the Libby app or go to <u>libbyapp.com</u> and link your library card.

3. You'll then need to authorize Sonos to connect to Libby. Tap Authorize.

	Add a service				
Add Libby by	y OverDrive account				
Please author	Please authorize Sonos to use your Libby by OverDrive account.				
	Authorize				
Cancel	Back Next				

4. You'll be redirected to a browser window to enter a setup code.

To get this code, go back to Libby (either the app or desktop version) and long-press the Menu icon in the upper-right corner. You'll have only 60 seconds to enter the code before it expires.

Once the code is accepted, you can go back to Sonos to confirm that your accounts are connected.

5. Name your Libby account in the Sonos app.

Libby by OverDrive

The Other Side of the Coin

Angela Kelly

Remember - Search for and borrow titles as normal in the Libby App and then go back to the Sonos App and browse to the Libby service and your book will be ready for you to play on your Sonos speaker!

Libby syncs across devices, so you'll keep your place even if you switch from listening on your Sonos to listening on your phone.
