What would the score be?

- A) 2 points for yellow
- B) 5 points for yellow and 4 for red
- C) 1 point for yellow as they have more in the house
- D) 4 points to red as they have 4 closer in than the outside yellows

Which team won and by how many points?

Team Yellow by 2 points as their two is closer to the middle than any red

To the right is a Curling scoreboard. Along the top are the ends some games are 10 ends in big championships but normally are 8 ends. You must put the correct score for each end under the correct one and they will be added up at the end to determine who is the winner

Which team wins and what is the score after 6 ends?

Italy wins 10-4

Which team wins and what is the score after 10 ends?
